Work Experience

Quolam Business Solutions, Mumbai

Apr 2023 - Present

Jr. Reactjs Developer

- I focus on development of the IRCLASS's **IRNavgath application**. My responsibilities include adding new features, translating Figma designs into scalable and reusable React code, and integrating APIs. Additionally, I develop APIs.
- Led the Development of **ERS (Emergency Response Services)** module, which solves problem of emergency through ERS certificate by providing pre-defined Services manuals, models and agreement letter.
- Implemented Efficient email notification functionality using AWS lambda function and aws S3
- Contributed in development of the **feature hooks and reusable reactjs components** enhancing code efficiently and maintainability.
- **Optimized build time** of the IRNavgath application by 75% (from 12min to 3min)
- Played key role in the **Revvity's Asset management Application**, developed Frontend architecutre from scratch.
- Spearheaded the Development of **Academy Certificate Application**, I have a comprehensive understanding of the code base, and my contributions involve in developing features. Notably, I successfully implemented a sophisticated feature that generated thousands of certificates in bulk, eliminating manual efforts.. This complex implementation earned me recognition and appreciation.
- Actively involved in guiding colleagues, addressing bugs, and converting project requirements into effective solutions. My role extends beyond coding, emphasizing collaboration and leadership within the team.

Meetcs pvt ltd, Mumbai

Dec 2022 - Mar 2023

Product Developer

- I contributed in the development of **Educational ERP (A2A-v2) SaaS platform** which includes development of the complex frontend development for modules like Instiute Structure, Admission and Examination.
- Contributed to all phases of the Software Development Life Cycle (SDLC), including requirements analysis, design, development, testing, deployment, and maintenance.
- Collaborated with cross-functional teams, including Business Analysts, Designers, and QA, to ensure seamless project delivery.
